

Our Commitment . . .

"We have so much faith in our genetics being suitable to the Commercial beef industry that we can confidently make this offer."

"Our bulls are demonstrating their worth continually on our own commercial properties.

We are so convinced in their ability to perform in other herds that we are prepared to lay our money on the line and buy back progeny at a premium, under an arrangement struck at the time of the purchase of the bull."

Elwyn Rea.

Interested. . . give us a call.

EDENGARRY BRAFORDS

Unique buy back offer . . .

*In a unique offer for the Australian Beef Industry,
the principals of Edengarry Braford's are
"Standing Behind the Product the Breed and Sell"
by offering a unique buy back program for breeders
using Edengarry bulls.*

This will involve

- Buying back a commercially relevant number of weaners*
- Stock being delivered to an agreed weighing station, ie: saleyards*
- Premium price will be paid – as agreed relating to the average for that class against the cattle market index at the nominated weighing station.*

Elwyn Rea and family are selecting only the best animals available at the time to inject the best genetics available into the Edengarry stock. Edengarry, the long held family property, is now home to some of the best Braford breeding stock in Australia.

Edengarry has been using the latest DNA GENEMarker Technology to select animals with high performance for tenderness and feed conversion efficiency.
